

Aanand Bhandari

Ai Engineer

✉ anandbhandari780@gmail.com ☎ +91 9341694765 | +977 9746683675 📍 Birgunj, Nepal

🌐 Aanand Bhandari 🔄 Aanand780

PROFESSIONAL SUMMERY

Highly motivated AI Engineer specializing in data analysis and machine learning. Skilled in Python, data preprocessing, model development, and performance optimization. Strong analytical mindset with problem-solving, teamwork, and continuous learning attitude. Focused on delivering accurate insights and scalable AI solutions aligned with industry standards.

EDUCATION

Bahra University, 09/2023 – Present | Wagnaghat-HP, India
Bachelor of Technology in Computer Science (AIML)

Shree Nrisingh Sec. School, 06/2021 – 02/2023 | Birgunj, Nepal
Higher Secondary Education (Science Stream & Computer)

SKILLS

Technical Skills — C, C++, HTML ,CSS, JavaScript, SQL, Python, **Soft Skills** — Adabtablity, Communication, Leadership

PROJECTS

Marks Prediction AI Model

- Developed a machine learning model to predict student marks using Linear Regression.
- Collected and preprocessed input features to improve prediction accuracy.
- Trained and tested the model using Scikit-learn and evaluated performance with accuracy metrics.
- Tuned model parameters to enhance results and reduce prediction error.
- Built a Python-based script for easy data input and automated output generation.

Prarking Management System

- Developed an automated system to verify and allow only registered society vehicles.
- Designed a database structure to store and manage vehicle information securely.
- Implemented number validation logic to ensure accurate vehicle entry detection.
- Built a Python-based interface for easy access, registration, and monitoring.
- Improved security and reduced manual checking effort through automation.

PROFESSIONAL EXPERIENCE

CERTIFICATES

- Artificial Intelligence, EXIN
